REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest a filtering as recited in the claims including calculating filter coefficients using a predetermined arithmetic expression that includes a parameter specifying a band position of an attenuation band to be enhanced locally in a stopband of amplitude characteristics of said filtering process, and substituting a value of the parameter into the arithmetic expression to change the filter coefficients to move the attenuation band to a band position specified the parameter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
